

Knovada Life Plan System

Empower people to help themselves

Knovada Life Plan System

Online Life Plan Module

With the Knovada Life Plan System you can automate many of the steps in the case management process in your organization. The life plan system improves efficiencies by tracking a program client's progress. It allows you to keep an extensive database of all program client specific assignments and their status. Our life plan system allows you to get reports, schedule, and update and add tasks. Assignments are automatically created since the life plan system is integrated with our survey system. Our life plan system allows you to organize program client information in a centralized location and the ability for access from any location that has Internet access. Track dates that assignments were scheduled and completed sign off dates along with youth leader/member or mentor final approval. Create and update program client specific assignments including strengths needs and strategies which provides the program participant with clear strategies and obtainable opportunities.

Integration with our Survey module

The Survey Module can be an effective tool to actually create the Life Plan assignments based upon responses from the program participants. It can likewise provide valuable feedback to the Community Services administrators through survey responses provided by the participants as they progress through the program.
