**Knovada Incorporated Announces Integration
with PointClickCare's Platform**
Partnership to provide a comprehensive asset inventory management system

Broomfield, Colorado July 22, 2021 – Knovada Incorporated, a Software as a Service provider, is proud to announce its partnership with PointClickCare, the leading cloud-based software vendor for the senior care market.

Knovada Asset Inventory Management System (K.A.I.M.S) is a comprehensive asset and inventory platform that allows facilities to easily and accurately manage their assets, supplies, and more.

K.A.I.M.S.:

- Allows the ability to manage - patient specific inventory requests and track patient billing.
- Provides the ability to check out patient specific assets and track out-patient billing.
- Has the capability to allow selecting a diagnosis to determine the levels of inventory and assets required.
- Has the capability to determine requirements based upon the current or anticipated facility population.
- Helps to avoid both product overstock and product shortages – asset management.
- Establishes reorder levels, automates supply orders, tracks product, provides service management analysis, product identification, and identifies supply lead demand requirements.
- Provides a robust inventory control and asset management system for the entire facility.

When integrated with PointClickCare, K.A.I.M.S. streamlines a facilities asset management, inventory control operations and eliminates duplicate entries. "Our PointClickCare integration provides you with seamless uploading and updating of your organization, including facility, facility rooms, facility beds, patients, patient coverage's, patient conditions, and practitioners' information", says Kevin H. Taylor, president, Knovada Incorporated. "The only thing left to do is load asset and inventory information into our system to very quickly start realizing a return on your investment."

"Knovada was very timely and responsive in meeting our system requirements which allowed us to meet our internal project deadlines. Our relationship with Knovada has created the framework to expand our software capabilities while centralizing and integrating all the tools available with the Knovada solution." said Jerry Pritchard, lead systems consultant, Great-West Retirement Services.

Additional information regarding the integration can be found on the [PointClickCare Marketplace](#) – an online platform that enables customers to easily

evaluate authorized third-party technology partners. Partners listed on the PointClickCare Marketplace offer integrated apps and/or services that are designed to be quickly deployed and work seamlessly with providers' existing workflows.

"The PointClickCare Marketplace offers the widest range of integrated solutions available to the senior care market," says Chris Beekman, Marketplace director, PointClickCare. "Our partnership with Knovada Incorporated is further testament to our continually growing partner network and ecosystem, and the wealth of possibilities it provides our customers to extend their technology capabilities."
